

A woman with blonde hair, wearing a dark blazer over a white top, stands on a stage. She is smiling and looking slightly to her right. Behind her is a large, glowing blue and white image of the Earth from space. The text 'LISA ANDREWS' is overlaid in large white letters across the bottom of the image.

LISA ANDREWS

Actively working on solving the Global Grand Challenges.

LISA ANDREWS

"Technology is advancing at a fast pace, we have the access and the ability to make a huge impact on the world with just one idea and the right support. I live to help businesses and our community think and act bigger."

Lisa Andrews is a professional investor working on solving the Global Grand Challenges by encouraging businesses and other entrepreneurs to think bigger in having a positive impact on the world. Lisa is driven by empowering people with technology to have a positive impact on humanity.

CEO and Co-Founder
WAVIA

Lisa co-founded WAVIA in 2019, a community capital platform, investing in global impact and sustainable startups with compelling financial returns. The WAVIA platform removes the friction of financial, human and community capital, focusing on the 17 sustainable development goals (SDGs) identified by the United Nations.

International Faculty
Singularity University

Lisa is an international faculty expert for Singularity University - a global learning and innovation community using exponential technologies to tackle the world's biggest challenges and build a better future for all. We connect, collaborate, converse, and converge community to bring sustainability through exponential technologies to solve pressing global challenges.

CEO
Ignite Alliance

Lisa founded Ignite Alliance in 2012 after realising that business owners could use a lot more practical advice and assistance when experiencing significant growth. Ignite provides services including high level consulting, finance team services, innovation services (research and development and export grants) and an incubator support program that provides angel investment for aspirational technologies that will have a positive impact on the world.

KEYNOTE TOPICS

The Evolution of Humans and the Future of Business

How to be a disrupter rather than be disrupted

Humans have evolved over thousands of years. The next 100 years will see an unprecedented change at an exponential pace. Are you ready?

Now is the time to think outside of the box about the role and power of technology and how it could be better applied to the world you work in. From nanotechnology, bionics, and robotics to artificial intelligence, networks, sensors, AR, VR and synthetic biology, the technologies used in our daily lives in the next decade are increasing at an alarming rate. While technology can be used to solve some of the world's biggest problems, the convergence of tech and what this means for businesses and leaders also presents a huge opportunity.

CEO and futurist Lisa Andrews will give an insight into some of these technologies that exist as well as explore the mindset that will be required to execute on a new type of strategy. Expect to come away feeling inspired and empowered to implement something new to future proof your business.

Key Takeaways:

1. Understand the context of evolution in an ever-changing global landscape
2. Learn a unique methodology to create economic opportunities
3. Some key actions to future proof your business

A Future of Perfect Knowledge

How devices and sensors will change everyday life for people and organizations in the next 10 years

The pace of technological progress is accelerating at an exponential rate. Nanotechnology, bionics, robotics, AI, VR/AR, networks and sensors, will impact every person, organisation and industry in the next ten years.

Making sense of this rate of change requires a new framework for strategic thought. Imagine the world when we are able to know anything, anywhere, anytime.

This session surveys the future of technological developments and covers how human, financial and community capital will shift to a world of new business models driven by profit with purpose.

Key Takeaways:

1. Understand the transition we are currently experiencing to a largely digital world
2. Explore converging technologies that are relevant to your organization
3. Add depth to the current digital strategy and transformational program for your organization.

WORKSHOPS

Creating a Metaverse Strategy for your Business

1-3 hours

Businesses these days have to be nimble and 'keep up' with technological trends. This session will cover a unique mindset about the Metaverse, Web 3, NFTs in a way relevant to business with some practical next steps.

Key Takeaways:

1. Create your unique mindset on how the Metaverse, Web 3 and NFTs could be used in your business;
2. Plan to utilise the technology driving the latest trends;
3. Create an action plan to implement your strategy in this area.

PANELIST

Lisa is often requested to be on Panels covering the following topics:

1. Future Visioning and Exponential Technologies
1. Ocean Conservation
1. Economic Empowerment
1. Investing in Deep Tech / Impact
1. Strategies to Implement Technology
 - Metaverse
 - Devices and Sensors
 - Digital twins
 - Nanotechnology, bionics, robotics, AI, networks, sensors, AR / VR, synthetic biology.

LOGISTICS AND BOOKINGS

Lisa travels from Sydney.

ENQUIRY PROCESS

1. CHECK AVAILABILITY

Contact Lisa's team: hello@lisaandrews.global
Or call the office: 1300 224 686

2. REQUEST A PROPOSAL

All engagements are quoted individually and after a chat with Lisa you will be provided a customised proposal, including speaker fees and travel expenses.

3. APPROVAL AND PAPERWORK

The date is locked in, a contract issued and a deposit paid to secure your date.

4. PRE-EVENT PROCESS

We can provide any assistance with promoting your event, including the production of a teaser video to go out to your delegates. We will also have a detailed briefing and Lisa will conduct industry research where applicable. We also manage all travel and logistics to save you time and hassle.

5. POST-EVENT

We will have a detailed debrief and Lisa will provide a resources pack for your delegates to extend the learning.
